| Reports To: VP, Software, Analytics & Mobile | Date: October 3, 2016 |
| Classification: Exempt, Full- Time | Position Location: San Jose, California |

Company Overview

Outset is a pioneering medical technology company that puts the patient before the machine. Our human-centered model is designed to dramatically improve not only the care experience – for patients, families, providers and physicians alike – but also cost-efficiency of dialysis delivery. We believe in introducing technology innovation in order to drive service model innovation. And in doing so, we intend to profoundly and permanently impact what, where and who can dialyze.

Position Overview

- Develop products for our digital health platform
- Own the products from developing requirement based on business input to design to development to deployment and support in production
- Partner with the business to define strategic initiatives and product vision
- Ensure proper policies and procedures are in place
- Provide technical guidance to the junior team members
- Influence technology decisions

Essential Job Functions

- Ever-curious and eager/able learner
- Strong written and verbal communication skills. Innate listener and observer
- Risk-taker who is willing and able to make dispassionate and objective decisions based on hard data as well as soft data
- Ensure adherence to Company Quality police
- Perform other duties as assigned

Requirements/Qualifications

- Bachelors or Masters in Computer Science
- Minimum 3+ years of experience as a full stack developer with a variety of languages including Java, Python, Java Script, CSS, SQL
- Minimum 2+ years of experience in development on Android and iOS
- Ability to design Java based systems from architecture to production

- Expert in messaging infrastructure using open source technologies
- In depth experience in object oriented design

- Embedded/IOT system development experience using C/C++ is a plus
- Medical device experience is a plus
- Must have proven portfolio of successful projects in above mentioned areas
